MR. BROSS:

Gave a briefing on the organization of the Sprague Committee and certain changes to the agenda for the meeting next week were agreed to. These changes were made in order to give the Director an opportunity to check with the 5412 Committee regarding certain items recommended for presentation to the Sprague Committee.

MR. DULLES:

a. Referred to a memorandum prepared by SR regarding a recent meeting [redacted] and directed that the information contained therein be PD'd to the community.

b. Asked Dr. Kent to prepare a Board memorandum on the possible implications of the forthcoming DeGaulle-Khrushchev talks. The Director commented that he had a strong feeling that Khrushchev will do his utmost to wean DeGaulle away from the West and, failing this, will most certainly attempt to break-up the Adenauer-DeGaulle front. He said there are a number of things that Khrushchev will hold out to DeGaulle in attempting to orient him toward the USSR and these attempts should be included in this memorandum.

d. Commented he thought it would be worthwhile to debunk the Soviet credits to Cuba and in all probability this could be best done in a speech either given by himself or some other official of the Government. He therefore asked that a memorandum on this subject be prepared - Action: DD/P and DD/I.
